### Record Revenue, Gross Margin, Adjusted EBITDA, and Net Income

MALTA, N.Y., Feb. 14, 2023 (GLOBE NEWSWIRE) -- GlobalFoundries Inc. (GF) (Nasdaq: GFS) today announced preliminary financial results for the fourth quarter and fiscal year ended December 31, 2022.

- Net income of \$668 million.
- Adjusted EBITDA of \$821 million.

### Key Full Year 2022 Financial Highlights

- Revenue of \$8,108 million, up 23% year-over-year.

"In the fourth quarter, the GF team continued to execute on its commitments to customers and shareholders, despite the well-publicized inventory correction. As we look to 2023, we will continue to deepen our engagements with our customers in bringing specialty and differentiated solutions to market."

### Recent Business Highlights

- GF and General Motors jointly announced that General Motors has entered into a long-term agreement with GF to secure a capacity corridor in our advanced Fab in Upstate NY for GM's U.S. supply chain. This first-of-its-kind, multi-year agreement brings a critical process to the U.S. and supports GM's strategy to reduce the number of unique chips needed to power increasingly complex and tech-laden vehicles.
- GF announced that it has acquired Renesas Electronics Corporation's proprietary and production-proven Conductive Bridging Random Access Memory (CBRAM) Technology, a low power memory solution designed to enable a range of applications in home and industrial IoT and smart mobile devices. The transaction further strengthens GF's memory portfolio and extends its roadmap of embedded nonvolatile memory solutions that is easy to integrate into other technology nodes.
- GF completed the sale of its East Fishkill, NY, facility to onsemi, on December 31, 2022, for a final purchase price of \$406m. The deal enables GlobalFoundries to further optimize our assets globally and intensify our investments in the differentiated technologies that fuel our growth while securing a long-term future for the East Fishkill facility and its employees.

### **Adjusted Financial Measures (Non-IFRS)**

In addition to the financial information presented in accordance with IFRS, this press release includes the following adjusted non-IFRS metrics: adjusted gross profit, adjusted operating profit, adjusted net income (loss), adjusted diluted earnings (loss) per share and adjusted EBITDA. We define adjusted gross profit as gross profit adjusted for share-based compensation expense. We define adjusted operating profit as profit from operations adjusted for share-based compensation expense and restructuring charges. We define adjusted net income (loss) as net income (loss) adjusted for share-based compensation expense, restructuring charges and the associated tax impact. We define adjusted diluted EPS as adjusted net income (loss) divided by the dilutive shares. We define adjusted EBITDA as net income (loss), adjusted for the impact of finance expense, finance income, income tax expense, depreciation, amortization, share-based compensation expense, transaction gains and associated expenses, restructuring charges, labor optimization initiatives and litigation settlements.

We believe that in addition to our results determined in accordance with IFRS, these adjusted non-IFRS measures provide useful information to both management and investors in measuring our financial performance and highlight trends in our business that may not otherwise be apparent when relying solely on IFRS measures. These adjusted non-IFRS financial measures provide supplemental information regarding our operating performance that excludes certain gains, losses and non-cash charges that occur relatively infrequently and/or that we consider to be unrelated to our core operations. For further information regarding these non-IFRS measures, please refer to "Unaudited Reconciliation of IFRS to Adjusted Non-IFRS" table above.

Adjusted non-IFRS financial information is presented for supplemental informational purposes only and should not be considered in isolation or as a substitute for financial information presented in accordance with IFRS. Our presentation of adjusted non-IFRS measures should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Other companies in our industry may calculate these measures differently, which may limit their usefulness as a comparative measure.
