(1) The Guidance provided contains forward-looking statements as defined in the U.S. Private Securities Litigation Act of 1995, and is subject to the safe harbors created therein. The Guidance includes management's beliefs and assumptions and is based on information that is currently available.

(2) Non-IFRS gross profit, Non-IFRS operating expense, Non-IFRS operating profit, Non-IFRS net income and Non-IFRS diluted EPS are Non-IFRS measures and, for purposes of the Guidance only, are defined as gross profit, operating profit, net income and EPS before share-based compensation, respectively. Non-IFRS operating expense is calculated by subtracting Non-IFRS operating profit from Non-IFRS gross profit.

(3) Non-IFRS margins are Non-IFRS measures and for purposes of the Guidance only, are defined as Non-IFRS gross profit, Non-IFRS operating profit and Non-IFRS net income, each divided by net revenue (using the definitions of Non-IFRS gross profit, Non-IFRS operating profit and Non-IFRS net income, in footnote (2) above, as appropriate).

(4) Included in net income is net interest income and other income and expense which we estimate will be between \$7 and \$15 million for the fourth quarter 2024. Also included in net income is income tax expense which we estimate will be between \$23 million and \$35 million for the fourth quarter 2024.

(1) Non-IFRS adjusted free cash flow is a Non-IFRS measure. See “Financial Measures (Non-IFRS)” for a discussion of why we believe these Non-IFRS measures are useful.

(2) Beginning Q1 2024 Non-IFRS adjusted free cash flow includes proceeds from government grants related to capital expenditures. This change in methodology is in anticipation of future expected proceeds from government grants related to capital expenditures from the planned funding awarded under the U.S. CHIPS and Science Act and the New York State Green CHIPS, and better aligns our Non-IFRS adjusted free cash flow metric to how GF assesses capital decisions internally. As such, prior periods have not been adjusted to reflect this new calculation methodology.

### Financial Measures (Non-IFRS)

In addition to the financial information presented in accordance with International Financial Reporting Standards (“IFRS”), this press release includes the following Non-IFRS measures: Non-IFRS gross profit, Non-IFRS operating profit, Non-IFRS operating expense, Non-IFRS net income, Non-IFRS selling, general and administrative, Non-IFRS research and development, Non-IFRS diluted earnings per share (“EPS”), Non-IFRS adjusted EBITDA, Non-IFRS adjusted free cash flow and any related margins. We define each of Non-IFRS gross profit, Non-IFRS selling, general and administrative and Non-IFRS research and development as each respective IFRS measure adjusted for share-based compensation. We define Non-IFRS operating profit as operating profit adjusted for share-based compensation and restructuring charges. We define Non-IFRS operating expense as Non-IFRS gross profit minus Non-IFRS operating profit. We define Non-IFRS net income as net income adjusted for share-based compensation, restructuring charges and the associated tax impact. We define Non-IFRS diluted EPS as Non-IFRS net income divided by the diluted shares outstanding. We define Non-IFRS adjusted free cash flow as cash flow provided by (used in) operating activities less purchases of property, plant and equipment and intangible assets plus proceeds from government grants related to capital

expenditures. We define Non-IFRS adjusted EBITDA as net income, adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, labor optimization initiatives and divestiture gains and associated expenses, legal settlements and transaction expenses. We define Non-IFRS gross margin as Non-IFRS gross profit divided by revenue. We define Non-IFRS operating margin as Non-IFRS operating profit divided by net revenue. We define Non-IFRS adjusted EBITDA margin as Non-IFRS adjusted EBITDA divided by net revenue.

We believe that in addition to our results determined in accordance with IFRS, these Non-IFRS measures provide useful information to both management and investors in measuring our financial performance and highlight trends in our business that may not otherwise be apparent when relying solely on IFRS measures. These Non-IFRS financial measures provide supplemental information regarding our operating performance that excludes certain gains, losses and non-cash charges that occur relatively infrequently and/or that we consider to be unrelated to our core operations. Management believes that Non-IFRS adjusted free cash flow as a Non-IFRS measure is helpful to investors as it provides insights into the nature and amount of cash the Company generates in the period. For further information regarding these Non-IFRS measures, please refer to the "Reconciliation of IFRS to Non-IFRS" tables.

Non-IFRS financial information is presented for supplemental informational purposes only and should not be considered in isolation or as a substitute for financial information presented in accordance with IFRS. Our presentation of Non-IFRS measures should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Other companies in our industry may calculate these measures differently, which may limit their usefulness as a comparative measure.
