"In the second quarter, the GF team delivered strong financial results above the midpoints of the Non-IFRS guidance ranges for revenue and gross margin, and earnings per share exceeded the high end of the guidance range," said Tim Breen, CEO of GF. "Continued momentum across our Automotive and Communications Infrastructure and Datacenter end markets, enabled double digit percent year-over-year revenue growth in the second quarter for both businesses. As we await a return to meaningful growth across the consumer-driven end markets, I am pleased with the steps GF is taking to broaden the long term value proposition to our customers, through the expected acquisition of MIPS, as well as establishing our China for China foundry partnership."

Recent Business Highlights

- In June, GF was announced as the exclusive manufacturing partner for Continental's newly established Advanced Electronics & Semiconductor Solutions (AESS) organization to help meet the growing demand for safe, connected autonomous vehicles. GF will serve as a trusted foundry partner to Continental, offering its manufacturing expertise, diversified global footprint, and automotive-qualified portfolio of process technologies.
- In July, GF announced a definitive agreement to acquire MIPS, a leading supplier of AI and processor IP. This acquisition will broaden GF's portfolio with advanced RISC-V processor IP and software tools tailored for real-time computing in automotive, industrial, and data center infrastructure applications. The acquisition will offer customers deeper and closer collaboration with GF, as well as enhanced opportunities for chip customization.
- GF advanced its China-for-China strategy by entering into a definitive agreement with a local Chinese foundry to support GF's customers with reliable supply in mainland China. Customers will benefit from GF's automotive grade process technologies and manufacturing expertise, to serve their domestic Chinese demand.

<i>Gross margin⁽²⁾</i>	24.4% ± 100bps	~110bps	25.5% ± 100bps
Operating expenses⁽²⁾	\$228 ± \$10	~\$38	\$190 ± \$10
<i>Operating margin⁽²⁾</i>	10.8% ± 180bps	~340bps	14.2% ± 180bps

(1) The Guidance provided contains forward-looking statements as defined in the U.S. Private Securities Litigation Act of 1995, and is subject to the safe harbors created therein. The Guidance includes management's beliefs and assumptions and is based on information that is available as of the date of this release.

- (2) Non-IFRS gross margin, Non-IFRS operating expenses, Non-IFRS operating margin and Non-IFRS diluted EPS are Non-IFRS measures and, for purposes of the Guidance only, are defined as gross profit as a percent of revenue, operating profit as a percent of revenue, operating expenses and diluted EPS, all before share-based compensation, respectively. See "Financial Measures (Non-IFRS)" for further discussion on these Non-IFRS measures and why we believe they are useful.
- (3) We expect share-based compensation of \$18 million and \$38 million in cost of revenue and operating expenses, respectively. The Non-IFRS margin impacts are calculated by dividing share-based compensation by net revenue, and the Non-IFRS diluted EPS impact is calculated by dividing share-based compensation by the fully diluted share count.
- (4) Included in diluted EPS is net interest income (expense) and other income (expense) which we estimate will be between \$4 million and \$12 million for the third quarter 2025. Also included in diluted EPS is income tax expense which we estimate will be between \$26 million and \$40 million for the third quarter 2025.

Financial Measures (Non-IFRS)

In addition to the financial information presented in accordance with International Financial Reporting Standards ("IFRS"), this press release includes the following Non-IFRS financial measures: Non-IFRS gross profit, Non-IFRS operating profit, Non-IFRS operating expense, Non-IFRS net income, Non-IFRS selling, general and administrative, Non-IFRS research and development, Non-IFRS other income (expense), Non-IFRS income tax benefit (expense), Non-IFRS diluted earnings per share ("EPS"), Non-IFRS adjusted EBITDA, Non-IFRS adjusted free cash flow and any related margins. We define each of Non-IFRS gross profit, Non-IFRS selling, general and administrative, Non-IFRS research and development, Non-IFRS operating profit, Non-IFRS other income (expense), Non-IFRS income tax benefit (expense) and Non-IFRS net income as gross profit, selling, general and administrative, research and development, operating profit, other income (expense), income tax benefit (expense), and net income, respectively, adjusted for share-based compensation, structural optimization, amortization of acquired intangibles and other acquisition related charges, impairment of long-lived assets, revaluation of equity investments, restructuring charges, tax matters, and any associated income tax effects. We define Non-IFRS operating expense as Non-IFRS gross profit minus Non-IFRS operating profit. We define Non-IFRS diluted EPS as Non-IFRS net income divided by the diluted shares outstanding. We define Non-IFRS adjusted free cash flow as cash flow provided by (used in) operating activities less purchases of property, plant and equipment and intangible assets plus proceeds from government grants related to capital expenditures. We define Non-IFRS adjusted EBITDA as net income adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, impairment of long-lived assets, revaluation of equity investments, structural optimization, litigation claims and acquisition related charges. We define each of Non-IFRS gross margin, Non-IFRS operating margin, Non-IFRS net income margin, Non-IFRS adjusted free cash flow margin and Non-IFRS adjusted EBITDA margin as Non-IFRS gross profit, Non-IFRS operating profit, Non-IFRS net income, Non-IFRS adjusted free cash flow and Non-IFRS adjusted EBITDA, respectively, divided by net revenue. Any adjustments described above that are zero for a given period are excluded from the "Reconciliation of IFRS to Non-IFRS" table. See "Reconciliation of IFRS to Non-IFRS" section for a detailed reconciliation of Non-IFRS financial measures to the most directly comparable IFRS measure.

We believe that in addition to our results determined in accordance with IFRS, these Non-IFRS financial measures provide useful information to both management and investors in measuring our financial performance and highlight trends in our business that may not otherwise be apparent when relying solely on IFRS measures. These Non-IFRS financial measures provide supplemental information regarding our operating performance that excludes certain gains, losses and non-cash charges that occur relatively infrequently and/or that we consider to be unrelated to our core operations. Management believes that Non-IFRS adjusted free cash flow as a Non-IFRS measure is helpful to investors as it provides insights into the nature and amount of cash the Company generates in the period.

Non-IFRS financial information is presented for supplemental informational purposes only and should not be considered in isolation or as a substitute for financial information presented in accordance with IFRS. Our presentation of Non-IFRS measures should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Other companies in our industry may calculate these measures differently, which may limit their usefulness as comparative measures.
