This presentation and the accompanying oral presentation include "forward-looking statements," that reflect our current expectations and views of future events. These forward-looking statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995 and include but are not limited to, statements regarding our financial outlook, future guidance, product development, business strategy and plans, and market trends, opportunities and positioning. These statements are based on current expectations, assumptions, estimates, forecasts, projections and limited information available at the time they are made. Words such as “expect,” “anticipate,” “should,” “believe,” “hope,” “target,” “project,” “goals,” “estimate,” “potential,” “predict,” “may,” “will,” “might,” “could,” “intend,” “shall,” “outlook,” “on track,” and variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements, although not all forward-looking statements contain these identifying words. Forward-looking statements are subject to a broad variety of risks and uncertainties, both known and unknown. Any inaccuracy in our assumptions and estimates could affect the realization of the expectations or forecasts in these forward-looking statements. For example, our business could be impacted by geopolitical conditions such as the ongoing political and trade tensions with China and the wars in Ukraine and Russia, the market for our products may develop or recover more slowly than expected or than it has in the past, we may fail to realize the full benefits of our restructuring plan; our operating results may fluctuate more than expected; there may be significant fluctuations in our results of operations and cash flows related to our revenue recognition or otherwise; a network or data security incident that allows unauthorized access to our network or data or our customers’ data could damage our reputation; we could experience interruptions or performance problems associated with our technology, including a service outage, and global economic conditions could deteriorate, including due to increasing interest rates, rising inflation, and any potential recession. It is not possible for us to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results or outcomes to differ materially from those contained in any forward-looking statements we may make. Moreover, we operate in a competitive and rapidly changing market, and new risks may emerge from time to time. You should not rely upon forward-looking statements as predictions of future events. These statements are based on our historical performance and on our current plans, estimates and projections in light of information currently available to us, and therefore you should not place undue reliance on them.

Although we believe that the expectations reflected in our statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances described in the forward-looking statements will be achieved or occur. Moreover, neither we, nor any other person, assumes responsibility for the accuracy and completeness of these statements. Recipients are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date such statements are made and should not be construed as statements of fact. Except to the extent required by federal securities laws, we undertake no obligation to update any information or any forward-looking statements as a result of new information, subsequent events, or any other circumstances after the date hereof, or to reflect the occurrence of unanticipated events. For a discussion of potential risks and uncertainties, please refer to the risk factors and cautionary statements in our 2022 Annual Report on Form 20-F, current reports on Form 6-K and other reports filed with the Securities and Exchange Commission. Copies of our SEC filings are available on our Investor Relations website, investors.gf.com, or from the SEC website, www.sec.gov.

This presentation and the accompanying oral presentation also contain estimates and other statistical data made by independent parties and by us relating to market size and growth and other data about our industry and business. This data involves a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. We have not independently verified the industry data generated by independent parties and contained in this presentation and, accordingly, we cannot guarantee their accuracy or completeness. In addition, projections, assumptions, and estimates of our future performance and the future performance of the markets in which we compete are necessarily subject to a high degree of uncertainty and risk.

In addition to the financial information presented in accordance with IFRS, this presentation and the accompanying oral presentation include the following Non-IFRS metrics: adjusted gross profit, adjusted operating profit, adjusted operating expense, adjusted net income, adjusted selling, general and administrative, adjusted research and development, adjusted diluted earnings per share (“EPS”), adjusted EBITDA, free cash flow and any related margins. We define each of adjusted gross profit, adjusted selling, general and administrative and adjusted research and development as each respective IFRS measure adjusted for share-based compensation. We define adjusted operating profit as operating profit adjusted for share-based compensation and restructuring charges. We define adjusted operating expense as adjusted gross profit minus adjusted operating profit. We define adjusted net income as net income adjusted for share-based compensation, restructuring charges and the associated tax impact. We define adjusted diluted EPS as adjusted net income divided by the diluted shares outstanding. We define free cash flow as cash flow provided by (used in) operating activities less purchases of property, plant and equipment and intangible assets. We define adjusted EBITDA as net income, adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, labor optimization initiatives and divestiture gains and associated expenses, legal, settlements and transaction expenses. We define adjusted gross margin as adjusted gross profit divided by revenue. We define adjusted operating margin as adjusted operating profit divided by net revenue. We define adjusted EBITDA margin as adjusted EBITDA divided by net revenue.

We believe that in addition to our results determined in accordance with IFRS, these Non-IFRS measures provide useful information to both management and investors in measuring our financial performance and highlight trends in our business that may not otherwise be apparent when relying solely on IFRS measures. These Non-IFRS financial measures provide supplemental information regarding our operating performance that excludes certain gains, losses and non-cash charges that occur relatively infrequently and/or that we consider to be unrelated to our core operations. Management believes that free cash flow as a Non-IFRS measure is helpful to investors as it provides insights into the nature and amount of cash the Company generates in the period. For further information regarding these Non-IFRS measures, please refer to the Appendix.

Non-IFRS financial information is presented for supplemental informational purposes only and should not be considered in isolation or as a substitute for financial information presented in accordance with IFRS. Our presentation of Non-IFRS measures should not be construed as an indication that our future results will be unaffected by unusual or nonrecurring items. Other companies in our industry may calculate these measures differently, which may limit their usefulness as a comparative measure.

Adjusted EBITDA is a Non-IFRS measure. We define adjusted EBITDA as net income adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, labor optimization initiatives, divestiture gains and associated expenses, legal settlements and transaction expenses. Adjusted EBITDA margin is adjusted EBITDA divided by net revenue. See the Appendix for an unaudited reconciliation of adjusted Non-IFRS to IFRS metrics and for a discussion of why we believe these Non-IFRS measures are useful.

**Adjusted EBITDA** is a Non-IFRS measure. We define Adjusted EBITDA as net income adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, labor optimization initiatives, divestiture gains and associated expenses, legal settlements and transaction expenses. Adjusted EBITDA margin is adjusted EBITDA divided by net revenue. See the Appendix for an unaudited reconciliation of adjusted Non-IFRS to IFRS metrics and for a discussion of why we believe these Non-IFRS measures are useful.
Key Recent Announcements

GF and Infineon announced a new multi-year agreement on the supply of Infineon's leading 40nm automotive safety controller as well as power management and connectivity solutions through 2030.

GF has been awarded $35m in federal funding to accelerate the manufacturing of GF's differentiated gallium nitride (GaN) on silicon semiconductors at its facility in Essex Junction, Vermont. This funding brings GF closer to large-scale production of GaN chips, which are unique in their ability to handle high voltages and temperatures.

For the second year in a row, GF has earned a place on Newsweek’s esteemed list of "America's Most Responsible Companies," underscoring the Company's longstanding commitment to ESG and environmentally sustainable manufacturing practices.

1) Adjusted gross profit, adjusted operating profit, adjusted net income, adjusted diluted EPS, adjusted EBITDA and any related margins are all Non-IFRS measures; see the Appendix for a detailed reconciliation of Non-IFRS measures to the most directly comparable IFRS measure and for a discussion of why we believe these Non-IFRS metrics are useful.

2) Beginning in Q4 2022, the Company revised its definition of adjusted net income to include an adjustment for restructuring charges and the associated tax impact. The change was made due to a restructuring undertaken in Q4 2022. The Company believes the revised definition provides management and investors with more useful information to evaluate the operations of our business. Adjusted net income is now defined as net income adjusted for share-based compensation, restructuring charges and the associated tax impact.

(1) Adjusted gross profit, adjusted operating profit, adjusted net income, adjusted diluted EPS, adjusted EBITDA and any related margins are all Non-IFRS measures; see the Appendix for a detailed reconciliation of Non-IFRS measures to the most directly comparable IFRS measure and for a discussion of why we believe these Non-IFRS metrics are useful.

(2) Includes the gain on sale of our East Fishkill business in December 2022.

(3) Beginning in Q4 2022, the Company revised its definition of adjusted net income to include an adjustment for restructuring charges and the associated tax impact. The change was made due to a restructuring undertaken in Q4 2022. The Company believes the revised definition provides management and investors with more useful information to evaluate the operations of our business. Adjusted net income is now defined as net income adjusted for share-based compensation, restructuring charges and the associated tax impact.

(4) Beginning in Q3 2022, the Company revised its definition of adjusted EBITDA to include an adjustment for finance income. The change was made due to the Company making an investment during Q2 2022 of approximately $1.0 billion in marketable securities. The Company believes the revised definition provides management and investors more useful information to evaluate the operations of our business. Adjusted EBITDA is now defined as net income, adjusted for the impact of finance expense, finance income, income tax expense, depreciation and amortization, share-based compensation, divestiture gains and associated expenses, restructuring charges, labor optimization initiatives and litigation settlement.

(1) The Guidance provided above contains forward-looking statements as defined in the U.S. Private Securities Litigation Act of 1995, and is subject to the Safe Harbor created therein. The Guidance includes management’s beliefs and assumptions and is based on information currently available.

(2) Adjusted gross profit, adjusted operating profit, adjusted net income, and adjusted diluted EPS are Non-IFRS metrics and, for purposes of the Guidance only, are defined as gross profit, operating profit, net income, and EPS before share-based compensation, respectively. Adjusted operating expense is calculated by subtracting adjusted operating profit from adjusted gross profit.

(3) Adjusted margins are Non-IFRS metrics and for purposes of the Guidance only, are defined as adjusted gross profit, adjusted operating profit and adjusted net income, each divided by net revenue (using the definitions of adjusted gross profit, adjusted operating profit, and adjusted net income, in footnote (2) above, as appropriate).

(1) Includes $3.1 million of share-based compensation in Q4 2022.
(2) Activity for the year ended December 31, 2022, relates to the gain on the sale of our East Fishkill business.
(3) Reflects change to adjusted EBITDA definition discussed in more detail elsewhere in this earnings presentation.
(4) Includes interest income of $1.0 million in Q1 2022 and $7.0 million in Q2 2022. Had these numbers been included, our adjusted EBITDA and adjusted EBITDA margin would have been $697 million and 35.9% for Q1 2022 and $777 million and 39.0% for Q2 2022, respectively.
(5) Adjusted EBITDA and related margin are Non-IFRS measures. See “Financial Measures (Non-IFRS)” for a discussion of why we believe these Non-IFRS measures are useful.
(6) For the periods presented above, there were no labor optimization expenses.
In addition to the financial information presented in accordance with IFRS, this presentation and the accompanying oral presentation include the following Non-IFRS metrics: adjusted gross profit, adjusted operating profit, adjusted operating expense, adjusted net income, adjusted selling, general and administrative, adjusted research and development, adjusted diluted earnings per share ("EPS"), adjusted EBITDA, free cash flow and any related margins. We define each of adjusted gross profit, adjusted selling, general and administrative and adjusted research and development as each respective IFRS measure adjusted for share-based compensation. We define adjusted operating profit as operating profit adjusted for share-based compensation and restructuring charges. We define adjusted operating expense as adjusted gross profit minus adjusted operating profit. We define adjusted net income as net income adjusted for share-based compensation, restructuring charges and the associated tax impact. We define adjusted diluted EPS as adjusted net income divided by the diluted shares outstanding. We define free cash flow as cash flow provided by (used in) operating activities less purchases of property, plant and equipment and intangible assets. We define adjusted EBITDA as net income, adjusted for the impact of finance expense, finance income, income tax expense (benefit), depreciation and amortization, share-based compensation, restructuring charges, labor optimization initiatives and divestiture gains and associated expenses, legal settlements and transaction expenses. We define adjusted gross margin as adjusted gross profit divided by revenue. We define adjusted operating margin as adjusted operating profit divided by net revenue. We define adjusted EBITDA margin as adjusted EBITDA divided by net revenue.

We believe that in addition to our results determined in accordance with IFRS, these Non-IFRS measures provide useful information to both management and investors in measuring our financial performance and highlight trends in our business that may not otherwise be apparent when relying solely on IFRS measures. These Non-IFRS financial measures provide supplemental information regarding our operating performance that excludes certain gains, losses and non-cash charges that occur relatively infrequently and/or that we consider to be unrelated to our core operations. Management believes that free cash flow as a Non-IFRS measure is helpful to investors as it provides insights into the nature and amount of cash the Company generates in the period. For further information regarding these Non-IFRS measures, please refer to "Unaudited Reconciliation of IFRS to Non-IFRS" table above.

Non-IFRS financial information is presented for supplemental informational purposes only and should not be considered in isolation or as a substitute for financial information presented in accordance with IFRS. Our presentation of Non-IFRS measures should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Other companies in our industry may calculate these measures differently, which may limit their usefulness as a comparative measure.
